Sir/Madam

TO WHOM IT MAY CONCERN REFERENCE LETTER FOR MR. SALVATION MOSES OMALIGBA

I have known Mr. Salvation Moses Omaligba as my student in the Department of Petroleum Engineering, Federal University of Petroleum Resources, Effurun, Delta State, Nigeria (FUPRE) for over five years. He enrolled in the department as a fresher in 2012 and graduated in 2017 with a second class upper honours degree in Petroleum Engineering.

Savation carried out his undergraduate research project in the area of Production Engineering (Effect of Sub-Optimal Production of a Gas Lifted Well (*Case of not injecting from the Orifice*)) and his project was adjudged to be very good. He carried out a six Months Industrial Training at Masije Oil & Integrated Service Limited, Port-Harcourt, Rivers State as a *Field Engineer Trainee* from June 2016 to November 2016

Mr. Omaligba is brilliant, calm and diligent in carrying out duties assigned to him. He has an analytical mind and easily understands concepts. His interpersonal relationships with fellow students and lecturers are excellent. He has a strong determination to achieve set goals and objectives. He has an independent mind and a high capacity of original thought.

As his head of department and class teacher from 2012 to 2017, I have known him to be well behaved and respectful. I strongly recommend him for any job positions as he will do very well on the job.

Dr Evans U. Jegbefume
Senior Lecturer & Acting Head, Petroleum Engineering Dept.
